

What Is Dual Language Immersion?

Our Dual Language Immersion Program provides instruction in both English and Spanish through all content areas every day. This is accomplished in the most natural way for our young learners. One teacher interacts and speaks with the children in English while the other speaks in Spanish. Both teachers use high quality language when speaking, reading and writing. Teachers document children's daily activities and record their development using the DRDP. These Learning Stories will be provided in either English or Spanish depending on family

Understanding the Human Being by Dr. Silvana Quattrocchi Montanaro

"If we could have two [or more] different persons speaking different languages around the children, they could easily absorb all of them without any particular effort.... But this is possible only in the first years of life, during the years in which the child is a genius in learning languages. The child's brain is ready for all this work at birth. The teaching technique is scientifically valid. It can be called the "mother's method", which involves speaking directly, and singing and interacting with the child in daily life." (144-5)

QCS MISSION STATEMENT:

Quality Children's Services is a community-based, non-profit organization formed to provide quality services based on the unique needs of children and families. QCS strongly believes that regardless of socio-economic status, language or cultural background, all children and families are entitled to quality services.

The QCS centers provide a Montessori environment that offers instruction in the students' home language. At Children's Atelier Center, our dual language immersion will provide instruction in English and Spanish for all children ages 18 months up to 5 years of age.

The Montessori based Dual Language Program is available to all families in our community through parent paid tuition or alternative payment enrollment.
